Your Prescription Drug List

Helping you get the most out of your pharmacy benefit.

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and organizes them into cost levels, also known as tiers.

Go to www.uhcsr.com for complete and up-to-date drug information

Since the PDL may change, we encourage you to click on “Login To My Account” at our website www.uhcsr.com. This website is the best source for up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons.

The screenshot displays the UnitedHealthcare StudentResources website. The header includes the UnitedHealthcare logo and the text "StudentResources". A search bar with a "GO" button is located in the top right. Below the header, a navigation menu lists various services: College Assistance Program, Dental, Intercollegiate Sports, Prep Schools, Prescription Drug Plan (highlighted), Scholastic Emergency Services, Short Term Medical Insurance, Student Health, UnitedHealth Allies, and Vision. The main content area is titled "Prescription Drug Plan" and contains the following text:

UnitedHealthcare StudentResources Prescription Drug Programs

Welcome to your 2013 Prescription Drug List

At UnitedHealthcare, we want to help you better understand your medication choices.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you.

To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List.

What is a Prescription Drug List (PDL)?

This document is a list of commonly prescribed medications placed into cost levels, also known as tiers. It includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA). The PDL is reviewed periodically and may change.

Please note: Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule. It is not a complete list of medications, and not all medications listed may be covered under your plan. Please look at your benefit plan documents provided by your employer or health plan to see what medications are covered under your plan. You may also click on “Login To My Account” at our website www.uhcsr.com or call the toll-free member phone number on the front of your health plan ID card for more information.

How do I use my Prescription Drug List?

When choosing a medication, you and your doctor should consult the PDL. It is organized by common medical conditions. Then, within each medical condition section, medications are listed by cost level, known as tiers.

If your medication is not listed in this document, please click on “Login To My Account” at our website www.uhcsr.com or call the toll-free member phone number on the front of your health plan ID card.

What are tiers?

Tiers are the different cost levels you pay for a medication.

Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

Check your benefit plan documents to find out your specific pharmacy plan costs.

		
Tier 1	Tier 2	Tier 3
Your lowest-cost medications	Your midrange-cost medications	Your highest-cost medications

Please note: Some plans may have two or four tiers, while others may not have any. If you have a high deductible plan, the tier cost levels will apply once you hit your deductible. Refer to your enrollment and plan materials on www.uhcsr.com, or call the toll-free number on the front of your health plan ID card for more information about your benefit plan.

When does the Prescription Drug List change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when its generic becomes available.
- Medications may move to a higher tier on January 1.
- Medications may be excluded from coverage on January 1 or July 1.

When a medication changes tiers, you may have to pay a different amount for that medication.

Why are there letters (SL, N, etc.) next to certain medications in the PDL, and what do they mean?

Some medications are noted with letters next to them. The symbols refer to our pharmacy benefit programs and are provided to help you check which medications may have a program. Your benefit plan determines how these medications may be covered for you.

PDL Symbols

1/2T	May be eligible for Half Tablet Program
DSN	Designated Specialty Network
N	Notification or Prior Authorization required*
SL	Supply Limit

*Depending on your benefit you may have notification or prior authorization requirements for select medications.

To learn more about a pharmacy program or to find out if it applies to you, please click on “Login To My Account” at our website www.uhcsr.com or call the toll-free member phone number on the front of your health plan ID card.

Why are some medications excluded from coverage?

Medications may be excluded from coverage under your pharmacy benefit when it works the same or similar as another prescription medication or an over-the-counter (OTC) medication. There may be other medication options available.

Should I talk to my doctor about over-the-counter (OTC) medications?

An over-the-counter (OTC) medication may be the right treatment for some conditions. Talk to your doctor about available OTC options. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-tier alternative is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Check www.uhcsr.com to make sure.

Are you taking a specialty medication?

Specialty medications treat rare and complex conditions and are typically higher cost medications. Please note, not all specialty medications are listed in the PDL.

If you are taking a specialty medication that is on Tier 2 or Tier 3, call the toll-free number on the front of your health plan ID card to talk to a representative about finding lower-cost options.

OptumRx is the specialty pharmacy that can provide most of your specialty medications along with helpful programs and services. Call OptumRx Specialty Pharmacy at 1-888-702-8423 and have your prescriptions delivered right to your home or office.

How do I get updated information about my pharmacy benefit?

Since the PDL may change, we encourage you to click on “Login To My Account” at our website www.uhcsr.com or call the toll-free member phone number on the front of your health plan ID card for more current information.

Log on to www.uhcsr.com for the following pharmacy information and tools:

- Pharmacy benefit and coverage information
- Possible lower-cost medication options
- A list of medications based on a specific medical condition
- Medication interactions and side effects
- Participating retail pharmacies by zip code
- Your prescription history

And, if mail service is included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set-up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the toll-free member phone number on the front of your health plan ID card. Representatives are available 24 hours a day (except Thanksgiving and Christmas).

In certain documents, the Prescription Drug List (PDL) was referred to as the “Preferred Drug List (PDL).” This change in terms does not affect your benefit coverage.

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines coverage for these medications.
