

The Basix Dental Savings Program

When College & University students are asked how they would improve their student health plan, one of the most common ideas mentioned is alleviating the cost of dental services.

Gallagher Student Health & Special Risk is proud to provide our insured students and their dependents with the Basix Dental Savings Program, an exclusive discount arrangement which saves students 20%-50% off the cost of dental care.

The Basix Dental Savings Program is not insurance, rather it is a network of dentists that provide dental services to students enrolled in Gallagher Student Health & Special Risk health plans at negotiated discount rates.

How the Program Works

Basix contracts directly with area dentists to provide services for insured students at reduced fees. Students download all the information they need for their visit when selecting a contracted dentist from our website. This includes the fees the dentist accepts, an administrative contact to coordinate with at the dental office, and instructions for the dentist about how to check eligibility.

By using our Program, students pay significantly less than they would otherwise – up to 50%!

Instant Savings: No Claim Forms; No Waiting for Reimbursement

Because this is not insurance coverage, the student pays the provider for the services they receive at the time of their visit at the discounted rates.

Seamless Student Service

Gallagher Student Health & Special Risk's commitment to exceptional customer service extends to our partners at Basix. For full plan information, students can link directly to their School's Basix Dental web page through www.gallagherstudent.com, and general customer service is available by e-mail and toll-free phone number.

Simple for Students to Use

- The student finds a contracted provider at www.basixstudent.com.
- The student pays the provider for the care received at the time of service.
- The pricing for nearly all common services are listed on the Basix web site.
- When College & University students are asked how they would improve their student health plan, one of the most common ideas mentioned is alleviating the cost of dental services.

Tremendous Savings

The following tables show examples of the Program's savings for two common types of dental care. Savings vary by geographic region, service and provider. Please visit our web site for specific pricing.

| Example 1 | | | | |
|------------------------------|---------------|-----------------|---------|--------------------|
| Regular Checkup and Cleaning | | | | |
| | Student Pays* | Billed Charge** | Savings | Savings Percentage |
| COMPREHENSIVE ORAL EXAM | \$39 | \$75 | \$36 | 48% |
| CLEANING – ADULT | \$53 | \$91 | \$38 | 42% |
| FOUR BITEWING X-RAYS | \$36 | \$62 | \$26 | 42% |
| TOTAL | \$128 | \$228 | \$100 | \$44% |

| Example 2 | | | | |
|-------------------------------|---------------|-----------------|---------|--------------------|
| Regular Check Up and Cleaning | | | | |
| | Student Pays* | Billed Charge** | Savings | Savings Percentage |
| COMPREHENSIVE ORAL EXAM | \$39 | \$75 | \$36 | 48% |
| CLEANING – ADULT | \$53 | \$91 | \$38 | 42% |
| FOUR BITEWING X-RAYS | \$36 | \$62 | \$26 | 42% |
| RESIN FILLING – 1 SURFACE | \$72 | \$123 | \$51 | 41% |
| RESIN FILLING – 2 SURFACES | \$90 | \$160 | \$70 | 44% |
| TOTAL | \$290 | \$511 | \$221 | 43% |

*A given student's cost will vary by the provider they use and the services they receive.
